

Naomi Escoffery, PMP

Healthcare Transformation Executive | Change Agent | National Security Health Strategist
Strategic Sourcing & Partnerships | Enterprise Turnarounds | Digital Health Innovation

Naomi Escoffery is a healthcare transformation executive and change agent with 20 years of leadership in the Military Health System, serving 9.6 million beneficiaries. Widely recognized for solving complex, high-stakes organizational challenges, Ms. Escoffery notably turned a troubled \$500 million portfolio supporting healthcare operations, policy, and TRICARE into a \$47 million surplus; authoring the operational blueprint subsequently cloned to stand up two additional consolidated business support offices across headquarters. A master of scale, she led the historic restructuring unifying 3,160 tri-service staff into a single enterprise, engineered a care-delivery redesign that yielded a 30 percent efficiency gain and positioned it for enterprise scale, and secured \$124 million for nurse-triage artificial intelligence as DHA's Chief Accelerator Officer.

Today, as DHA's Category Manager for Strategic Sourcing and Partnerships, she secured multi-agency designation for the \$10 billion DHA Omnibus IV military medical research vehicle and co-leads interagency efforts with the VA and DLA to buy like a commercial enterprise. A Phoenix native, Ms. Escoffery is an international keynote speaker, a Board Advisor to the American Council for Technology and Industry Advisory Council (ACT-IAC) and holds degrees from Arizona State University and the Eisenhower School at National Defense University.
